

Mert Bukulmez

Award-winning Senior UX Designer with over five years of professional experience in creating user-centric designs and leading UX projects across various platforms. Proven expertise in enhancing engineering workflows and optimizing user experiences through innovative and strategic design. Recognized for delivering high-quality, impactful solutions and fostering collaboration in dynamic, complex environments.

Experience

- **Career Break (Family Care Responsibilities)**

August 2024 - December 2025

- Temporarily stepped away from full-time employment to provide care and support to an immediate family member during a medical treatment period.

- **Beko & Arcelik Group**

Senior UI & UX Designer April 2023 - August 2024

- Executed a range of UX activities to deliver consistent, intuitive solutions across platforms.
- Led the design of award-winning products recognized for usability and customer satisfaction.
- Improved user flows and reduced friction in engineering processes through strategic design solutions.
- Managed stakeholders and collaborated with cross-functional teams to align design goals with business objectives.
- Mentored junior designers, providing constructive feedback and guidance.

- **UI & UX Designer** November 2020 - April 2023

- Oversaw the end-to-end design process for consumer electronics, ensuring compliance with best practices and design guidelines.
- Collaborated with global teams and facilitated workshops to foster a user-centric approach.
- Contributed to the development and implementation of a cohesive design system.

- **Industrial Designer** September 2018 - July 2019

- Delivered design solutions for domestic appliances, ensuring usability and brand alignment.
- Actively participated in knowledge-sharing initiatives within the design team.
